Recently, a question arose as to whether or not the unit prices bid by any contractor were public information prior to action taken by the Department to award a contract to the lowest responsible bidder.

In the interest of clarification and until such time that a written legal opinion dictates the contrary, all unit prices submitted by bidders shall be considered confidential until or unless the Department executes a contract with the lowest responsible bidder. Once a contract is awarded and executed, the unit prices bid by the successful contractor do, of course, become a matter of public record.

Please ensure ~~that you and~~ members of your staff are guided by the above until and unless subsequent direction to the contrary is issued.
